## 03.06 grill evening

use adhesive strips for the name plates of the participants

bo wants to invest some money in this

he already bought stuff for grilling

Shopping list:

coal, barbecue lighter, some snackos (marshmallow), and an adhesive strip?

**Bo wants to buy the stuff the friday before the grill evening**

If someone wants to add something to the shopping list, they have time until 01.06 until the evening

**Keep the purchase receipts!**

**bo will show pics of the barbecue spot in the group tomorrow**

If it's hot, get ice cubes and ice cream?

Amin lives 5 minutes away from this spot.

## java tutors said something to bo

someone at the all purpose tutorial posted the past solution

solution proposed by the tutors: someone from them sit there?

Victoria will tell the all purpose tutors to not give away past solutions

solution proposal from claus:

the course instructor could create new questions

## question by yona: can you do this course in the regelstudienzeit?

according to rofaida and victoria yes

rofaida: it begins hard but becomes easier as it goes on

victoria: we don't have that many essays and term papers, which reduces our workload.

Text technology isn't the best thing to start tho

we talked about the CP requirements, Orientierungsprüfung and so on

At the Eignungstest of the Fremdsprachenzentrum you can use some tricks to do something said Rofaida

## Do we want to do an FAQ?

victoria and rofaida have lots of knowledge in this area

arne said, that this was already planned

Survival Guide for CL?

We have a link in the moodle?

Bo is interested in starting this.

Questions come in October mostly.

Fidan could help, because she manages the maillist.

Arne and Bo can brainstorm together

## Prüfungsordnung revamp

Rofaida has lots of knowledge in this area, we could do something there and then propose it to the institute.

When is the next institute talk?

When is the next update of the Prüfungsordnung?

Modulhandbuch revamp was already done by Arne, Annika

Could ask Herr Sauer, Rofaida will visit him and tell him about the contradictions.

Ask him when the Prüfungsordnung will be revamped

Victoria and Rofaida will brainstorm on a document

## Merch

we design hoodies and the new logo, lea is on the logo

Claus and Bo would use the ISCL condoms

Claus would love ISCL Stickers

## E-Mail: Election worker for the StuRa

easy money

5.07 and 06.07 is the voting event

05.06 last registration date

Tuesday morning 6 hours = 60 bucks

## Helping with the clubhouse party

Yona is helping, what a hero
