January 27, 2023

Present: John, Rofaida, Daniella, Nicolai
Protocol by John:

- We are now asking for funds, but we have no money

- Cannot pay for QSM money

- We got money because of brain damage acquired during Covid.

- Tried all purpose tutorials, and lost money. **Sad noises**

- Lots of off topic stories that should not be recorded.

- 10000 for all purpose tutorials.

- We wanted to burn through corona funds because otherwise it goes to waste.

- Professors busy and led to misunderstanding.

- Talk with them about something.

- We can only have 3 repititoria. Probably enough.

- Create poll for repitotiria.

- Need statistics.

- R programming.

- What is our focus for next semester? Since they already know the basics.

- Willing to pay 3 tutors for 20 hours.

- Planning to Java recap of 4 - 6 hours with 2 tutors, and 5 hour of prep time, and one guy prepares more than the other.

-

- They will have statistics.

- Idea: intro to statistics with python

- People focus on programming as opposed to linguistics.

- Not intro to statistics in python, doing it in R.

- Probability theory also,

- Recap big O material?

- It is ok to take photos of exams, just don't share them according to rofaida.

- Looked at John's previous amazing meeting notes, and did not know what he was talking about.

- Clarified talking about previous exams. We assumed we got ghosted, but they did not ghost us. Others were purposely ignored. Only ghosted by linguistic fundamentals.

- Still have 20 hours.

- Others that we don't cover, such as git. And unix command line tools.

- Still have 15 hours.

- Potential problem: only the people that are doing very well show up. People that are struggling don't show up.

- Project idea?

- We will tell them everything will be alright.

- Do we have anything more to talk about.

- Talk about the key?

- Don't take the key. You have no reason except to grief people.

- Next time discuss the key system and come up with a booking system.

- How to get the code?

- Maybe have them text in the group.
